M170
KNEE SUPPORT 基本型护膝

S	28.9-33cm	L	38.1-43.1cm
M	33-38.1cm	XL	43.1-48.1cm

Product Features 功能简述

基本款式, 可提供关节保暖, 提升本位感觉, 起到最基本的保健作用

Basic style, can provide joint warmth, improve the standard sense, play the most basic health effects

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强
Imported rubber latex yarn, elasticity, Durable

Design Features 设计特点

筒状束套采用两面伸缩弹性设计, 依膝部曲线使其均匀包裹, 提供束缚防护效果

The cylindrical sleeve adopts 2 ways stretched design, according to the Knee of the curve wrapped entirely, provide restraint protection effect

Users 适用人群

膝部保暖、膝部关节炎、轻微挫伤/扭伤、膝部无力
Knee warm, knee arthritis, slight contusion / sprain, knee weakness

M171
KNEE GUARD 基本型毛毡护膝

S	28.9-33cm	L	38.1-43.1cm
M	33-38.1cm	XL	43.1-48.1cm

Product Features 功能简述

基本款式, 可提供关节保暖, 提升本位感觉, 起到最基本的保健作用

Basic style, can provide joint warmth, improve the standard sense, play the most basic health effects

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强
Imported rubber latex yarn, elasticity, Durable

Design Features 设计特点

筒状束套采用两面伸缩弹性设计, 依膝部曲线使其均匀包裹, 提供束缚防护效果。护膝前侧附有毛毡垫片, 可在一定范围内吸收外来的撞击

The cylindrical sleeve adopts 2 ways stretched design, according to the Knee of the curve wrapped entirely, provide restraint protection effect. With the front knee felt pads, can absorb the external impact in a certain range

Users 适用人群

膝部保暖、膝部关节炎、轻微挫伤/扭伤、膝部无力
Knee warm, knee arthritis, slight contusion / sprain, knee weakness

M270
COIORED KNEE GUARD 彩色运动护膝

S	28.9-33cm	L	38.1-43.1cm
M	33-38.1cm	XL	43.1-48.1cm

Product Features 功能简述

紧密的包裹膝部, 更为舒适、不易移位, 缓和膝部的慢性疼痛病症, 提升本位感觉, 起到防护的作用, 保暖效果好

Basic style, can provide joint warmth, improve the standard sense, play the most basic health effects

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强
Imported rubber latex yarn, elasticity, Durable

Design Features 设计特点

筒状束套采用四面伸缩弹性设计, 依膝部曲线使其均匀包裹, 提供束缚防护效果

The cylindrical sleeve adopts 2 ways stretched design, according to the Knee of the curve wrapped entirely, provide restraint protection effect. With the front knee felt pads, can absorb the external impact in a certain range

Users 适用人群

膝部保暖、膝部关节炎、轻微挫伤/扭伤、膝部无力
Knee warm, knee arthritis, slight contusion / sprain, knee weakness

M272
KNEE SUPPORT 保健型护膝

S	28.9-33cm	L	38.1-43.1cm
M	33-38.1cm	XL	43.1-48.1cm

Product Features 功能简述

紧密的包裹膝部, 更为舒适、不易移位, 缓和膝部的慢性疼痛病症, 提升本位感觉, 保暖效果好

Tight covering knee, more comfortable, not easy to shift, easing chronic ankle pain conditions, improve support sense, played the role of protection, good thermal effects

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强
Imported rubber latex yarn, elasticity, Durable

Design Features 设计特点

筒状束套采用四面伸缩弹性设计, 依膝部曲线使其均匀包裹, 提供束缚防护效果

The cylindrical sleeve adopts 4 ways stretched design, according to the Knee of the curve wrapped entirely, provide restraint protection effect

Users 适用人群

膝部保暖、膝部关节炎、轻微挫伤/扭伤、膝部无力
Knee warm, knee arthritis, slight contusion / sprain, knee weakness

M271
LONG KNEE SUPPORT
加长型护膝

S	28.9-33cm	L	38.1-43.1cm
M	33-38.1cm	XL	43.1-48.1cm

Product Features 功能简述

紧密的包覆腿部, 更为舒适、不易移位, 缓和腿部的慢性疼痛病症, 提升本位感觉, 保暖效果好

Tight covering knee, more comfortable, not easy to shift, easing chronic ankle pain conditions, improve support sense, played the role of protection, good thermal effects

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强
Imported rubber latex yarn, elasticity, Durable

Design Features 设计特点

筒状束套采用四面伸缩弹性设计, 依腿部曲线使其均匀包覆, 提供束缚防护效果

Use both sides of elasticity the cylindrical collar design. According to the curve of the knee, evenly coated, providing restraint protective effect

Users 适用人群

膝部保暖、膝部关节炎、轻微挫伤/扭伤、膝部无力
Knee warm, knee arthritis, slight contusion / sprain, knee weakness

M273
CERAMIC KNEE SUPOORT
远红外线保健护膝

S	28.9-33cm	L	38.1-43.1cm
M	33-38.1cm	XL	43.1-48.1cm

Product Features 功能简述

产生的负离子远红外线能透过皮肤迅速的被人体吸收, 深入皮肤的远红外线会引起原子和分子的震动, 再透过共鸣吸收形成反映, 促使皮下深层的温度上升, 并使微血管扩张促进血液循环及人体组织的新陈代谢

It emits far-infrared rays to penetrate deep into the body to activate cells and provide therapeutic heat to improve blood circulation. It enhances cells renewal and provides soothing relief from minor pain associated with nervous system disorders

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强
Imported rubber latex yarn, elasticity, Durable

Design Features 设计特点

筒状束套采用四面伸缩弹性设计, 依膝部曲线使其均匀紧密的包覆, 提供束缚防护效果。通过纳米技术把远红外线做成微粒状, 将其编织在线纱内的设计不易因洗涤而造成竹碳性能缺失

The cylindrical sleeve adopts 4 ways stretched design, according to the knee of the curve wrapped entirely, provide the wrap effect. Use the nano technology, the far-infrared rays are made into particles, and the design of the yarn is not easy to be caused by washing and the carbon loss of the bamboo is caused by washing.

Users 适用人群

膝部保暖、膝部关节炎、轻微挫伤/扭伤、膝部无力
Knee warm, knee arthritis, slight contusion / sprain, knee weakness

BREATHABLE KNEE SUPPORT
透气型膝部束套

A 打孔Neoprene(发泡海绵)能迅速排除过多的热气与湿气, 保持皮肤干爽舒适
Neoprene can rapidly eliminate excessive heat and moisture, keep skin dry and comfortable

B 三片式裁剪设计, 依膝部曲线使其均匀紧密的包覆, 提供束缚防护效果
It is made of the highest grade closed cell neoprene, covered with stretch nylon on both sides for your comfort

B

D470
BREATHABLE KNEE SUPPORT
透气型膝部束套

S	28.9-33cm	L	38.1-43.1cm
M	33-38.1cm	XL	43.1-48.1cm

Product Features 功能简述

具有束缚功效, 减少膝关节韧带耐力降低或负担过大而造成的伤害, 能在缓和的活动中预防轻度伤害, 并对轻微的伤害产生保护效果

Neoprene is the ultimate material for compression and heat retention, which helps improve blood circulation. This combination provides a therapeutic treatment to muscle and joint pain or injury

Materials 材质特点

打空 Neoprene (发泡海绵)能迅速排除过多的热气与湿气, 保持皮肤干爽舒适
Neoprene can rapidly eliminate excessive heat and moisture, keep skin dry and comfortable

Design Features 设计特点

三片式裁剪设计, 依膝部曲线使其均匀紧密的包覆, 提供束缚防护效果

It is made of the highest grade closed cell neoprene, covered with stretch nylon on both sides for your comfort

Users 适用人群

各项运动防护
Sport Protection

D471

CLOSED PATELLA KNEE SUPPORT
包裹式调整护膝

ONE SIZE 33- 43.1cm

Product Features 功能简述

具有束缚功效，减少膝关节韧带因耐力降低或负担过大而造成的伤害，能在缓和的活动中预防轻度伤害，并对轻微的伤害产生保护效果

Neoprene is the ultimate material for compression and heat retention, which helps improve blood circulation. This combination provides a therapeutic treatment to muscle and joint pain or injury

Materials 材质特点

Neoprene (发泡海绵) 材质紧束力强、支撑性好、保暖性佳

Neoprene material have tight force, good support, keep warm

Design Features 设计特点

开放式设计，可调式搭扣可按实际需求进行调整
Unique hook and loop closure design fits all knee sizes with adjustable support

Users 适用人群

各项运动防护
Sport protection

D570

OPEN PATELLA KNEE SUPPORT
可调式髌骨稳定护膝

ONE SIZE 33- 43.1cm

Product Features 功能简述

具有束缚功效，减少膝关节韧带因耐力降低或负担过大而造成的伤害，圆形垫片所产生的稳定效果能降低因受力不均产生的髌骨疼痛现象

Neoprene is the ultimate material for compression and heat retention, which helps improve blood circulation. This combination provides a therapeutic treatment to muscle and joint pain or injury. Circle pad surrounding patella provides padded protection and stabilization to prevent patellar displacement

Materials 材质特点

Neoprene (发泡海绵) 材质紧束力强、支撑性好、保暖性佳; EVA 有较好的吸震效果

Neoprene material have tight force, good support, keep warm; EVA circle pad surrounding patella provides padded protection and stabilization to prevent patellar displacement

Design Features 设计特点

开放式设计，可调式搭扣可按实际需求进行调整。前方开孔的设计可减轻髌骨所承受的压力
Unique nylon exterior with dual hook-strap fasteners allow for fully adjustable compression

Users 适用人群

各项运动防护
Sport protection

KNEE SUPOORT WITH STAYS

可调式两侧强化髌骨稳定护膝

A 护具内附有两支可弯曲的弹性金属弹簧条设计，能稳定运动者的韧带获得支撑与保护
Spiral stays on each side allow limited flexion with rotational stability

B 前方开孔的设计可减轻髌骨所承受的压力
Retains body heat to warm muscles and increase blood circulation

A

B

D571

KNEE SUPOORT WITH STAYS
可调式两侧强化髌骨稳定护膝

ONE SIZE 33- 43.1cm

Product Features 功能简述

在频繁跳跃、落地等动作时，提供膝关节的固定及支撑，缓解过度疲劳或不恰当动作对膝关节带来的冲击。圆形垫片所产生的稳定效果能防止因受力不均产生的髌骨疼痛现象
During the frequent jumping, landing and other actions, provide the knee joint fixation and support, relief of excessive fatigue or inappropriate action of the knee joint. Circle pad surrounding patella provides padded protection and stabilization to prevent patellar displacement

Materials 材质特点

Neoprene (发泡海绵) 材质紧束力强、支撑性好、保暖性佳; EVA 有较好的吸震效果

Neoprene material have tight force, good support, keep warm; EVA circle pad surrounding patella provides padded protection and stabilization to prevent patellar displacement

Design Features 设计特点

开放式设计，可调式搭扣可按实际需求进行调整。护具内附有两支可弯曲的弹性金属弹簧条设计，能稳定运动者的韧带获得支撑与保护，前方开孔的设计可减轻髌骨所承受的压力
Unique hook and loop closure design fits most knee sizes. Spiral stays on each side allow limited flexion with rotational stability. Retains body heat to warm muscles and increase blood circulation

Users 适用人群

膝部保暖、膝部关节炎、轻微挫伤/扭伤、膝部无力
Knee warm, knee arthritis, slight contusion / sprain, knee weakness

D670
PATELLA BRACE
髌骨垫片加压带

ONE SIZE 33- 43.1cm

Product Features 功能简述

在频繁跳跃、落地等动作时，缓解过度疲劳或不恰当动作对髌骨带来的冲击

During the frequent jumping, landing and other actions, provide the knee joint fixation and support, relief of excessive fatigue or inappropriate action of the knee joint

Materials 材质特点

Neoprene (发泡海棉) 材质紧束力强、支撑性好、保暖性佳; EVA 有较好的吸震效果

Neoprene material have tight force, good support, keep warm; EVA circle pad surrounding patella provides padded protection and stabilization to prevent patellar displacement

Design Features 设计特点

开放式设计，可调式搭扣可按实际需求进行调整。内置EVA垫片具有良好的吸震与加压功能

Unique hook and loop closure design fits all knee sizes with adjustable support. EVA circle pad surrounding patella provides padded protection and stabilization to prevent patellar displacement

Users 适用人群

各项运动防护
Sport Protection

M172
ELASTIC KNEE WRAP
膝部弹性绷带

ONE SIZE

Product Features 功能简述

弹性绷带能依需要对膝部产生加压效果，舒缓肌肉所承受的冲击，降低疲劳的积累程度

Knee Wrap is made of a unique blend of extra-strength elastic and transverse nylon fibers which combine to give you long-lasting, heavy-duty support

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性更强
Imported rubber latex yarn, elasticity, Durable

Design Features 设计特点

简单式的缠绕设计，依照贴布方式的交错缠绕后，能强化踝部整体支撑与稳定性，可反复使用

Simple wrap design, easy to apply and remove, strengthen the overall support and stability, comfortable and reusable

Users 适用人群

各项运动防护
Sport protection

M160
BASIC TYPE OF THIGH
基本型护大腿

S 33-38.7cm L 44.4-49.1cm
M 38.7-44.4cm XL 49.1-54.8cm

Product Features 功能简述

基本款式，可提供大腿部位保暖，提升本位感觉，起到最基本的保健作用

Basic version can provide the thigh to keep warm, improve the standard of feeling, play the most basic health effects

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性更强
Adopt imported latex wire, more flexible and durable

Design Features 设计特点

筒状束套采用两面伸缩弹性设计，依大腿曲线使其均匀包覆，提供束缚防护效果

The cylindrical sleeve uses both sides flexibility design, according to the thigh curve evenly coated, provide protective effects of restraint

Users 适用人群

大腿保暖、大腿肌肉抽筋
Thigh warm, thigh muscle cramps

M262
HEALTH CARE OF THIGH
保健型护大腿

S 33-38.7cm L 44.4-49.1cm
M 38.7-44.4cm XL 49.1-54.8cm

Product Features 功能简述

紧密的包覆大腿，更为舒适、不易移位，缓和大腿的慢性疼痛病症，提升本位感觉，保暖效果好

Closely covered thigh, more comfortable, not easy to shift, ease the thigh of chronic pain disease, improve the standard sense, warm effect is good

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性更强
Adopt imported latex wire, more flexible and durable

Design Features 设计特点

筒状束套采用四面伸缩弹性设计，依大腿曲线使其均匀包覆，提供束缚防护效果

The cylindrical sleeve uses both sides flexibility design, according to the thigh curve evenly coated, provide protective effects of restraint

Users 适用人群

大腿保暖、大腿肌肉抽筋
Thigh warm, thigh muscle cramps

M282

HEALTH CARE OF LOWER LEG
保健型护小腿

S	28.9-33cm	L	37.7-42.4cm
M	33-37.7cm	XL	42.4-47.1cm

Product Features 功能简述

紧密的包裹大腿，更为舒适、不易移位，缓和小腿的慢性疼痛病症，提升本位感觉，保暖效果好

Closely covered thigh, more comfortable, not easy to shift, ease the leg of the chronic pain symptoms, improve the standard, warm effect is good

Design Features 设计特点

筒状束套采用四面伸缩弹性设计，依大腿曲线使其均匀包裹，提供束缚防护效果

The cylindrical sleeve adopts four telescopic elastic design, according to the thigh curve evenly coated, provide protective effects of restraint

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性更强
Adopt imported latex wire, more flexible and durable

Users 适用人群

小腿保暖、小腿肌肉抽筋
Warm, leg muscle cramps

D480

BREATHABLE LOW LEG SLEEVE
透气型小腿束套

S	28.9-33cm	L	37.7-42.4cm
M	33-37.7cm	XL	42.4-47.1cm

Product Features 功能简述

具有束缚功效，能集中肌肉的用力，减缓小腿肌肉群在跳跃等动作时的负担，提高小腿在运动中的表现

Have binding effect, can concentrate the muscle force, slow down the leg muscle group in the jump and so on the load, improves the performance of the leg in sports

Design Features 设计特点

三片式裁剪设计，依小腿曲线使其均匀紧密的包裹，提供束缚防护效果

Three chip cutting design, according to the small leg curve to make it uniform and compact coating, provide restraint protection effect

Materials 材质特点

打空Neoprene（发泡海绵）能迅速排除过多的热气与湿气，保持皮肤干爽舒适
Neoprene can rapidly eliminate excessive heat and moisture, keep skin dry and comfortable

Users 适用人群

小腿保暖、小腿肌肉抽筋
Warm, leg muscle cramps

M190

BASIC ANKLE SUPPORT
基本型踝部护套

S	15.2-17.9cm	L	20.6-23.3cm
M	17.9-20.6cm	XL	23.3-26cm

Product Features 功能简述

基本款式，可提供关节保暖，提升本位感觉，起到最基本的保健作用

Basic style, providing warmth to joints, improve support sense, played the basic role in health care

Design Features 设计特点

筒状束套采用两面伸缩弹性设计，依踝部曲线使其均匀包裹，提供束缚防护效果

Use both sides of elasticity the cylindrical collar design. According to the curve of the ankle joint, evenly coated, providing restraint protective effect

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性好
Use imported Latex, flexibility durability

Users 适用人群

踝部保暖、踝部关节炎、轻微挫伤/扭伤、踝部无力
Ankle warm, ankle arthritis, slight contusion / sprain, ankle weakness

M290

COLOR ANKLE SUPPORT
彩色运动护踝

S	15.2-17.9cm	L	20.6-23.3cm
M	17.9-20.6cm	XL	23.3-26cm

Product Features 功能简述

紧密的包裹踝部，更为舒适、不易移位，缓和踝部的慢性疼痛病症，提升本位感觉，起到防护的作用，保暖效果好

Tight covering ankle, more comfortable, not easy to shift, easing chronic ankle pain conditions, improve support sense, played the role of protection, good thermal effects

Design Features 设计特点

筒状束套采用四面伸缩弹性设计，依踝部曲线使其均匀包裹，提供束缚防护效果

Use both sides of elasticity the cylindrical collar design. According to the curve of the ankle joint, evenly coated, providing restraint protective effect

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性更强
Use imported Latex, flexibility durability

Users 适用人群

踝部保暖、踝部关节炎、轻微挫伤/扭伤、踝部无力
Ankle warm, ankle arthritis, slight contusion / sprain, ankle weakness

M292

ANKLE SUPPORT 保健型护踝

S	15.2-17.9cm	L	20.6-23.3cm
M	17.9-20.6cm	XL	23.3-26cm

Product Features 功能简述

紧密的包覆踝部, 更为舒适、不易移位, 缓和踝部的慢性疼痛病症, 提升本位感觉, 保暖效果好

Tight covering ankle, more comfortable, not easy to shift, easing chronic ankle pain conditions, improve support sense, played the role of protection, good thermal effects

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强
Use imported Latex, flexibility durability

Design Features 设计特点

筒状束套采用四面伸缩弹性设计, 依踝部曲线使其均匀包覆, 提供束缚防护效果

Use both sides of elasticity the cylindrical collar design. According to the curve of the ankle joint, evenly coated, providing restraint protective effect

Users 适用人群

踝部保暖、踝部关节炎、轻微挫伤/扭伤、踝部无力
Ankle warm, ankle arthritis, slight contusion / sprain, ankle weakness

M293

FAR INFRARED ANKLE SUPPORT 远红外线保健护踝

S	15.2-17.9cm	L	20.6-23.3cm
M	17.9-20.6cm	XL	23.3-26cm

Product Features 功能简述

产生的负离子远红外线能透过皮肤迅速的被人体吸收, 深入皮肤的远红外线会引起原子和分子的震动, 再透过共振吸收形成反映, 促使皮下深层的温度上升, 并使微血管扩张促进血液循环及人体组织的新陈代谢

The negative ions for-infrared rays is rapidly absorbed by the human body. It penetrate deep into the body to activate cells and provide therapeutic heat to improve blood circulation and the metabolism of human tissue

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强。远红外线纱可产生负离子远红外线功效
Use imported Latex, flexibility durability. far infrared ray yarn can produce negative ion far infrared effect

Design Features 设计特点

筒状束套采用四面伸缩弹性设计, 依踝部曲线使其均匀紧密的包覆, 提供束缚防护效果。通过纳米技术把远红外线做成微粒状, 将其编织在纱线内的设计不易因洗涤而造成竹炭性能缺失

Use both sides of elasticity the cylindrical collar design. According to the curve of the ankle joint, evenly coated, providing restraint protective effect. By nano technology, the far infrared ray is made into particles, woven into the yarn. It caused that not easy to be loss of the bamboo function by washing

Users 适用人群

踝部保暖、踝部关节炎、轻微挫伤/扭伤、踝部无力
Ankle warm, ankle arthritis, slight contusion / sprain, ankle weakness

M192

ANKLE SUPPORT 踝部弹性绷带

ONE SIZE

Product Features 功能简述

弹性绷带能依需要对踝部产生加压效果, 舒缓肌肉所承受的冲击, 降低疲劳的积累程度

Elastic bandages will make pressure on ankle, relieve muscle to withstand, reduce the degree of accumulation of fatigue

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强
Use imported Latex, flexibility durability

Design Features 设计特点

简单式的缠绕设计, 依照贴布方式的交错缠绕后, 能强化踝部整体支撑与稳定性, 可反复使用

The design is simple Winding formula, in accordance with the staggered manner winding, can strengthen the ankle support and stability. can be used repeatedly

Users 适用人群

各项运动防护
Sport Protection

D490

BREATHABLE ANKLE SUPPORT 透气型踝部束套

S	15.2-17.9cm	L	20.6-23.3cm
M	17.9-20.6cm	XL	23.3-26cm

Product Features 功能简述

具有束缚功效, 减少踝关节韧带因耐力降低或负担过大而造成的伤害, 能在缓和的活动中预防轻度伤害, 并对轻微的伤害产生保护效果

bound effect to reduce ankle ligament because reduced excessive damage caused by reduced endurance or burden. can prevent minor injury in activity, and produce a protective effect

Materials 材质特点

打空Neoprene (发泡海棉) 能迅速排除过多的热气与湿气, 保持皮肤干爽舒适
Neoprene can quickly eliminate excess heat and moisture, keeping the skin dry and comfortable

Design Features 设计特点

三片式裁剪设计, 依踝部曲线使其均匀紧密的包覆, 提供束缚防护效果

Three pieces cutting design, make the ankle uniformly tight coating, providing restraint protective effect

Users 适用人群

各项运动防护
Sport Protection

M130
BASIC ELBOW PADS
基本型肘部护套

S	15.2-19.3cm	L	23.4-27.5cm
M	19.3-23.4cm	XL	27.5-31.6cm

Product Features 功能简述

基本款式, 可提供关节保暖, 提升本位感觉, 起到最基本的保健作用

Basic style keeping joint warm; the basic role in health care

Design Features 设计特点

筒状束套采用两面伸缩弹性设计, 依肘部曲线使其均匀包覆, 提供束缚防护效果

The cylindrical design with both elastic sides make it evenly coating along the elbow-line and provide restraint protection

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性好

Adopting imported latex wire with good flexibility and durability

Users 适用人群

肘部保暖、肘部关节炎、轻微挫伤 / 扭伤、肘部无力

For elbow warming, elbow phlogistic, slight bruise / strain, elbow weakness

M230
COLORS ATHLETIC ELBOW PADS
彩色运动护肘

S	15.2-19.3cm	L	23.4-27.5cm
M	19.3-23.4cm	XL	27.5-31.6cm

Product Features 功能简述

紧密的包覆肘部, 更为舒适、不易移位, 缓和肘部的慢性疼痛病症, 提升本位感觉, 起到防护的作用, 保暖效果好

Closely covering elbow which is not easy to shift and more comfortable; Ease the elbow chronic pain; the basic role in health care; Warm effect

Design Features 设计特点

筒状束套采用四面伸缩弹性设计, 依肘部曲线使其均匀包覆, 提供束缚防护效果

The cylindrical design with both elastic sides make it evenly coating along the elbow-line and provide restraint protection

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强

Adopting imported latex wire with good flexibility and durability

Users 适用人群

踝部保暖、踝部关节炎、轻微挫伤/扭伤、踝部无力

For elbow warming, elbow phlogistic, slight bruise / strain, elbow weakness

M232
HEALTH ELBOW PADS
保健型护肘

S	15.2-19.3cm	L	23.4-27.5cm
M	19.3-23.4cm	XL	27.5-31.6cm

Product Features 功能简述

紧密的包覆肘部, 更为舒适、不易移位, 缓和肘部的慢性疼痛病症, 提升本位感觉, 保暖效果好

Closely covering elbow which is not easy to shift and more comfortable; Ease the elbow chronic pain; Warm effect

Design Features 设计特点

筒状束套采用四面伸缩弹性设计, 依肘部曲线使其均匀包覆, 提供束缚防护效果

The cylindrical design with both elastic sides make it evenly coating along the elbow-line and provide restraint protection

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强

Adopting imported latex wire with good flexibility and durability

Users 适用人群

踝部保暖、踝部关节炎、轻微挫伤 / 扭伤、踝部无力

For elbow warming, elbow phlogistic, slight bruise / strain, elbow weakness

M233
FAR INFRARED HEALTH CARE ELBOW
远红外线保健护肘

S	15.2-19.3cm	L	23.4-27.5cm
M	19.3-23.4cm	XL	27.5-31.6cm

Product Features 功能简述

产生的负离子远红外线能透过皮肤迅速的被人体吸收, 深入皮肤的远红外线会引起原子和分子的震动, 再透过共振吸收形成反映, 促使皮下深层的温度上升, 并使微血管扩张促进血液循环及人体组织的新陈代谢

The negative ions generated by the skin is rapidly absorbed by the human body, the deep skin of the far infrared can cause atoms and molecules of the shock, and then through the formation of a reflection of the absorption, prompting the skin deep temperature rise, and to promote blood circulation and the metabolism of human tissue

Design Features 设计特点

筒状束套采用四面伸缩弹性设计, 依肘部曲线使其均匀紧密的包覆, 提供束缚防护效果。通过纳米技术把远红外线做成微粒状, 将其编织在线纱内的设计不易因洗涤而造成竹炭性能缺失

The cylindrical sleeve adopts four telescopic elastic design, elbow curve which are coated evenly and closely, provide protective effects of restraint. By nano technology, the far infrared ray is made into particles, and the design of the yarn is not easy to be caused by washing and the carbon loss of the bamboo is caused by washing

Materials 材质特点

采用进口乳胶丝, 伸缩性、耐用性更强。远红外线纱可产生负离子远红外线功效

Adopt imported latex wire, more flexible and durable. Far infrared yarn can produce negative ion far infrared effect

Users 适用人群

肘部保暖、肘部关节炎、轻微挫伤/扭伤、肘部无力

The elbow is warm, the elbow is phlogistic, slight bruise / strain, elbow weakness

D430

BREATHABLE ELBOW SLEEVE
透气型肘部束套

S	15.2-19.3cm	L	23.4-27.5cm
M	19.3-23.4cm	XL	27.5-31.6cm

Product Features 功能简述

具有束缚功效，减少肘关节韧带因耐力降低或负担过大而造成的伤害，能在缓和的活动中预防轻度伤害，并对轻微的伤害产生保护效果

With binding effect, reduce the damage caused by the endurance of the elbow joint ligament, or reduce the injury caused by the endurance, can prevent the mild injury in the moderate activity, and produce the protective effect of the minor injury

Materials 材质特点

打空Neoprene（发泡海绵）能迅速排除过多的热气与湿气，保持皮肤干爽舒适

Neoprene can rapidly eliminate excessive heat and moisture, keep skin dry and comfortable

Design Features 设计特点

三片式裁剪设计，依肘部曲线使其均匀紧密的包覆，提供束缚防护效果

Three chip cutting design, according to the elbow curve to make it uniform and compact coating, to provide restraint protection effect

Users 适用人群

各项运动防护
Sports protection

M140

BASIC WRISTER 基本型护腕

S	12.1-14.3cm	L	16.5-18.7cm
M	14.3-16.5cm	XL	18.7-20.9cm

Product Features 功能简述

全掌套入式，能提高腕部的整体稳定性，并提供有效的固定与支撑

The palm sleeve-in wrist improving its stability and providing effective support and fixation

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性好

Adopting imported latex wire with good flexibility and durability

Design Features 设计特点

筒状束套采用两面伸缩弹性设计，依腕部曲线使其均匀包覆，提供束缚防护效果，不分左右

The cylindrical design with both elastic sides make it evenly coating along the wrist-line and provide restraint protection

Users 适用人群

手掌腕部保暖、腕部关节炎、轻微挫伤/扭伤
For palm or wrist warming, Wrist arthritis, slight bruise / strain

M240

COLORS ATHLETIC WRISTER
彩色运动护腕

S	12.1-14.3cm	L	16.5-18.7cm
M	14.3-16.5cm	XL	18.7-20.9cm

Product Features 功能简述

紧密的包覆腕部，更为舒适、不易移位，缓和腕部的慢性疼痛病症，提升本位感觉，起到防护的作用，保暖效果好

Closely covering wrist which is not easy to shift and more comfortable; Ease the elbow chronic pain; the basic role in health care; Warm effect

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性好

Adopting imported latex wire with good flexibility and durability

Design Features 设计特点

筒状束套采用四面伸缩弹性设计，腕肘部曲线使其均匀包覆，提供束缚防护效果

The cylindrical design with both elastic sides make it evenly coating along the wrist-line and provide restraint protection

Users 适用人群

腕部保暖、腕部关节炎、轻微挫伤/扭伤

For wrist warming, Wrist arthritis, slight bruise / strain

M242

HEALTH WRISTER
保健型护腕

S	15.2-19.3cm	L	23.4-27.5cm
M	19.3-23.4cm	XL	27.5-31.6cm

Product Features 功能简述

紧密的包覆腕部，更为舒适、不易移位，缓和腕部的慢性疼痛病症，提升本位感觉，起到防护的作用，保暖效果好

Closely covering wrist which is not easy to shift and more comfortable; Ease the elbow chronic pain; the basic role in health care; Warm effect

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性好

Adopting imported latex wire with good flexibility and durability

Design Features 设计特点

筒状束套采用四面伸缩弹性设计，腕肘部曲线使其均匀包覆，提供束缚防护效果

The cylindrical design with both elastic sides make it evenly coating along the wrist-line and provide restraint protection

Users 适用人群

腕部保暖、腕部关节炎、轻微挫伤/扭伤

For wrist warming, Wrist arthritis, slight bruise / strain

M142
ELASTIC WRISTER
腕部弹性绷带

ONE SIZE

Product Features 功能简述

弹性绷带能依需求对腕关节进行加压效果，协助手腕部在运动过程中的动态表现，舒缓肌肉所承受的冲击力，减低疲劳的积累程度

Elasticity can squeeze the wrist joint, to assist the wrist dynamic performance during motion, to relieve the strength beared by muscle, to reduce the accumulation degree of fatigue

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性好
Adopting imported latex wire with good flexibility and durability

Design Features 设计特点

简单式的缠绕设计，依照贴布方式的交错缠绕后，能强化腕部整体支撑与稳定性，可反复使用

Simple wrapping design with intertwined cloth strengthen the support and stability of whole wrist; it can be used repeatedly

Users 适用人群

腕部保暖、腕部关节炎、轻微挫伤/扭伤
For palm or wrist warming, Wrist arthritis, slight bruise / strain

M222
HEALTH CARE THE SHOULDER SLEEVE
保健型肩部护套

S	88.9-99cm	L	109.2-119cm
M	99-109.2cm	XL	119-132cm

Product Features 功能简述

紧密的包覆肩部，更为舒适、不易移位，缓和肩部的慢性疼痛病症，提升本位感觉，保暖效果好

Closely covered shoulder, more comfortable, not easy to shift, to ease the shoulder of chronic pain symptoms, improve the standard, warm effect is good

Materials 材质特点

采用进口乳胶丝，伸缩性、耐用性更强
Adopt imported latex wire, more flexible and durable

Design Features 设计特点

筒状束套采用四面伸缩弹性设计，依肩部曲线使其均匀包覆，提供束缚防护效果

The cylindrical sleeve adopts four telescopic elastic design, according to the curve of the shoulder to the uniform coating, provide protective effects of restraint

Users 适用人群

肩部疼痛、轻微挫伤/扭伤、肩周炎、肩部保暖
Shoulder pain, slight contusion / sprain, periarthritis of shoulder, shoulder warming

WAIST TRIMMER
减肥增暖束腰带

A 背高7寸，自由调节搭扣，对腰腹部有效加压、调整体态，并可维持的温热效果，舒缓肌肉僵硬等症状，穿戴舒适
7" width back and adjustable buckle Can be effective pressure on the waist abdomen, adjust posture, And can maintain a warm effect, relieve muscle stiffness and other symptoms. Wearing comfortable

B 采用4mm Neoprene(发泡海绵)，保暖支撑效果更显著

D450
WAIST TRIMMER
减肥增暖束腰带

ONE SIZE

Product Features 功能简述

基本型防护型护腰，可提供慢性腰背部疲劳与过度腰背部使用者的基本防护

Basic protective back support, can provide basic protection for chronic lumbar back fatigue and excessive waist back user

Materials 材质特点

采用Neoprene(发泡海绵)材质能有效为腰背部提供保暖与支撑，促进血液循环

Neoprene materials can effectively provide for back warmth and support, promote blood circulation

Design Features 设计特点

背高7寸，自由调节搭扣，对腰腹部有效加压、调整体态，并可维持的温热效果，舒缓肌肉僵硬等症状，穿戴舒适

7" width back and adjustable buckle Can be effective pressure on the waist abdomen, adjust posture, And can maintain a warm effect, relieve muscle stiffness and other symptoms. Wearing comfortable

Users 适用人群

低背疼、背部肌肉挫伤、腰背部保暖
Low back pain, back muscle contusion, back to keep warm

6"LUMBAR SUPPORT 6寸前窄后宽运动护腰

A 护具内附有两支可弯曲的弹性金属弹簧条设计，能稳定运动者的韧带获得支撑与保护
Spiral stays on each side allow limited flexion with rotational stability

B 可调式双重加压松紧带设计 稳定腹压 减轻疼痛
Adjustable double elastic design can stabilize the abdominal pressure, relieve pain

B

A

S750

6"LUMBAR SUPPORT 6寸前窄后宽运动护腰

S 58.4-71.1cm **L** 83.8-96.5cm

M 71.1-83.8cm **XL** 96.5-109cm

Product Features 功能简述

内置两根支撑条，外层有强力加压带，并可搭配加压垫等配件使用

Built in four support bar, the outer layer has a strong pressure belt, and can be used for other accessories such as collocation

Materials 材质特点

主体采用透气医疗松带与高强度复合网布构成
The main use of medical ungird and high strength composite breathable mesh structure

Design Features 设计特点

背高6寸的精短背高设计，透气材质，穿戴舒适轻便，弹性塑钢片提供腰背良好的支撑，可调式双重加压松紧带设计 稳定腹压 减轻疼痛

6" width high back, breathable material, Comfortable and portable. The elastic plastic sheet provides good support for low back pressure, adjustable double elastic design can stabilize the abdominal pressure, relieve pain

Users 适用人群

低背疼、背部肌肉挫伤、初级腰椎间盘突出
Low back pain, back muscle contusion, back to keep warm

8"BACK SUPPORT (WITH STAYS) 8寸高集中运动护腰

A 集中腰部的八根弹性支撑条能强化腰背不支撑，对运动过程中多变的躯干动作提供动态的保护
The eight elastic support of the central waist can strengthen the back support, provide dynamic protection for the movement of the trunk in the process of movement

B 双层强力束带给腹部适当压力以保持脊椎的良好姿势，舒缓因频繁动作或长期固定姿势而产生的疲劳情况
Double band to strong pressure to maintain proper abdominal vertebra good posture, relieve fatigue caused by frequent movement or long term fixation

B

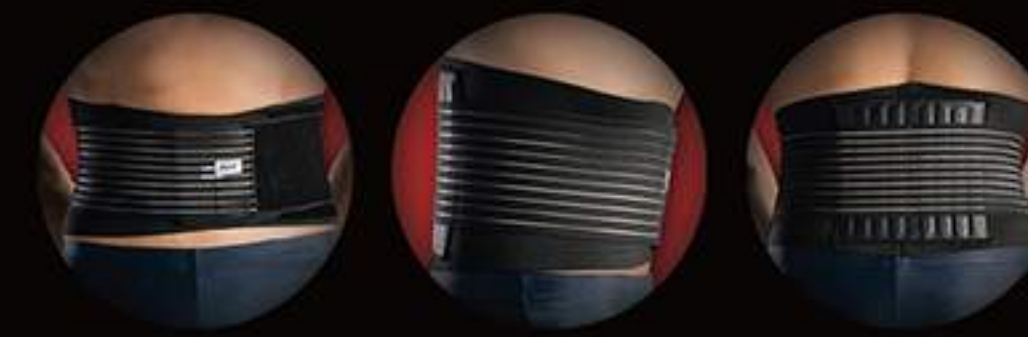

A

S751

8"BACK SUPPORT (WITH STAYS) 8寸高集中运动护腰

S 58.4-71.1cm **L** 83.8-96.5cm

M 71.1-83.8cm **XL** 96.5-109cm

Product Features 功能简述

功能型护腰，集中腰部的八根弹性支撑条能强化腰背不支撑，对运动过程中多变的躯干动作提供动态的保护

Functional back support, the eight elastic support of the central waist can strengthen the back support, provide dynamic protection for the movement of the trunk in the process of movement

Materials 材质特点

透气医疗松带，八根支撑条，并可搭配加压垫等配件使用
Breathable medical ungird, eight supporting bars, and can be used for other accessories such as collocation

Design Features 设计特点

背高9寸，腰部与侧腹部的弹性支撑条，全方位强化腰部支撑，对运动过程中多变的躯干动作提供动态保护，双层强力束带给腹部适当压力以保持脊椎的良好姿势，舒缓因频繁动作或长期固定姿势而产生的疲劳情况

9" width back, The elastic support of the waist and the side of the abdomen, the full strengthening of the waist support, provide dynamic protection for the movement of the trunk in the process of movement. Double band to strong pressure to maintain proper abdominal vertebra good posture, relieve fatigue caused by frequent movement or long term fixation

Users 适用人群

低背疼、背部肌肉挫伤、腰椎间盘突出、椎体移位、神经根性脊椎病、骨质疏松
Low back pain, back muscle contusion, lumbar disc herniation, vertebral displacement, nerve root sex, bone disease, osteoporosis
